

eco-flo lime[®]

CORRECTS ACIDIC SOILS AND BOOSTS CALCIUM LEVELS

ACTIVE INGREDIENTS: 40% w/v Calcium, 12.5% w/v Carbon

- Treats acidic soils
- Provides Calcium for stronger, healthier plants
- Fast acting liquid concentrate
- Can be applied through fertigation or sprayers*

* Remove filters from spray lines

HOW TO USE

DO NOT store in direct sunlight

DO NOT apply with other Agchem products that are sensitive to elevated pH levels

AVOID spraying directly onto fruit or foliage if white chalky residues are undesirable

AVOID applying around acid loving plants

USE	Soil pH Range	Sand/Loam L/ha	Clay L/ha	HOW TO APPLY
Very Acid Soil	4.5-5.5	75-100	100-125	Apply with a min. dilution of 1 part to 5 parts water. For boom spray min. nozzles size of 06-08 or flood jet nozzles. For uniform application maintain agitation throughout application.
Acid Soil	5.5-6.5	50-75	75-100	
Maintenance	6.5-7.5	25-50	50-75	
Low Ca in soil		5-10	10-15	Apply monthly.

PRODUCT DESCRIPTION

eco-flo lime is a liquid suspension of ultra fine technical grade calcium carbonate which can be applied by boom spray, aerial application or through irrigation. **eco-flo lime** has an average particle size of 5 microns which makes it highly reactive with the soil solution. This allows much faster correction of soil pH and more rapid plant access to calcium when compared with coarser bulk powder or granular products. **eco-flo lime** should be applied instead of **eco-flo dolomite** if correcting soil pH is the major aim, calcium supply is secondary and magnesium levels are adequate.

STORAGE & DISPOSAL: Store in the closed original container in a cool, dry place out of direct sunlight. Triple rinse container and dispose in an environmentally responsible manner.

SAFETY DIRECTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes and skin. If swallowed seek medical advice or contact Poisons Information Centre. Phone Australia 131 126. FOR EMERGENCIES ONLY CALL: 1800 033 111 (24 HOURS)
